

ANGELINA JOLIE

FURTHER EDUCATION AND PHILOSOPHY

High school, university and other forms of tertiary education are described in this section. Here we put together the experiences you had when you went to high school; see how you got on; and see if university would be beneficial. Your life philosophy and religious beliefs are also briefly described.

No planets in house of higher learning.

Generally, the pursuit of tertiary education and travel does not rule your personality. Widening your horizons just for the sake of it does not seem an option to you. Therefore your teachers may overlook your potential and capabilities. Your desire to learn comes from another area and that area stimulates you to study and travel and may not be identified till after high school.

What your partners up to dictates your education. You are very passionate about education you whether you like it or not. What you want to study is death and rebirth, the secret workings of power and the hidden world of high finance. You want to know how to obtain power and to use it. Sex and intimate relationships also interest you academically. Your interest in relationships and feelings lead to the study of psychotherapy, etc. You love to explore the power dynamics of relationships; the occult world; are good at finding out the truth. In your beliefs you are obsessive and deep, probably believing in reincarnation and after life. What you really need to study is the expression of feeling.

TALENT FOR HIGHER EDUCATION AND OBSTACLES

The skills that you have for study and further education are shown now. Plus the difficulties that you meet in attempting to educate yourself further, or develop a belief system. You can evaluate whether it is worth.

TALENT: You are enthusiastic about education, which makes you a good learner and teacher. You are naturally curious and a lifelong student. Encourage your ongoing education. A great story teller you may eventually write books. The arts, religion, philosophy and other cultures are good educational choices. Academically confident you should be good at exams.

TALENT: Academically, a success you have a powerful and insightful intellect. You love to get to the bottom of what you are studying and discover new truths. Always experimenting and researching you breathe new life into old ideas. If other factors concur you may rewrite history, science or the arts through some discovery or theory of yours.

TALENT: You absolutely love study, especially of art, money and exotic places. You obtain great pleasure from school, tertiary institutes and religion. These are the places where you are very happy and fortunate. You can make a living from education. Because you love pleasure you should also study food and wine.

TALENT: Academically, you are inspired in art, music, dance, psychology and medicine. Your artistic nature indicated skill in film making. Philosophically you are religious and would make a good missionary, you may wish to join some religious order. Encourage this as you have a special connection with God, or the Universe whatever you wish to call that which is greater than us. This will not fully manifest itself till your late thirties. You may be psychic and are directed by faith rather than logic. You believe in yours and other peoples' dreams.

***** **ATTENTION** *****

Academically you have difficulties, because you do not trust your own wisdom. You are fearful of continuing study after high school. You are self limiting, fearing you will fail before you have even begun. You need to encouragement academically. Your responsibility in life is to develop your mind, becoming educated and cultured. You always want a qualification and confidence will not come till you get that piece of paper. When you do stop being frightened of exams you work hard and long to achieve your academic goals. Eventually you may become an authority in your field. Education becomes easier for you, as you move into your late twenties.

OBSTACLE: A know-it-all. You will have trouble in high school and in tertiary institutes because you assume you know the answer and get it wrong. Then you receive poor grades. Confidence in your ability to learn then suffers. High school and tertiary institute teachers are much more exacting so you will do better with subjects that do not involve too many facts but opinions and generality. Arts are better for you than science. Do better with male teachers and in sport.
